

As insurance professionals, FCA Insurance Brokers are independent intermediaries who act as counsellors and advocates to assist with your insurance decisions. We survey the available options for you, negotiate with Insurers, and provide expert advice regarding coverage and other alternatives, relative to your own specific needs. In the event of a claim, problems or a dispute with an Insurer, we work with you to trouble-shoot and bring the matter to a conclusion.

FCA Insurance Brokers supports our industry's commitment to a Code of Consumer Rights and Responsibilities, including transparency regarding compensation for our services.

To this end, below you will find a list of the Insurers currently accessed by FCA Insurance Brokers, as well as the standard commission rates included by these companies within their premiums. These commission percentages are paid annually for both new business and renewals. Please note also that not all Insurers will write all classes of coverage.

¹ May include additional consideration for additional clerical tasks and / or underwriting performed on behalf of Insurers. ² Indicates Insurers with whom FCA Insurance Brokers has a contingent profit commission agreement. These agreements offer a possibility of additional compensation, but only if certain minimums of volume, claims records, growth and retention are met, sometimes over several years, within an Insurer's entire portfolio. For more information on contingent profit agreements offered by Insurers, please refer to the websites of the specific insurance companies indicated. ³ Total commissions capped at \$250 per vehicle.

Where FCA Insurance arranges premium financing, the premium finance provider may pay us a percentage of the interest as an origination fee.
